

## Product Description

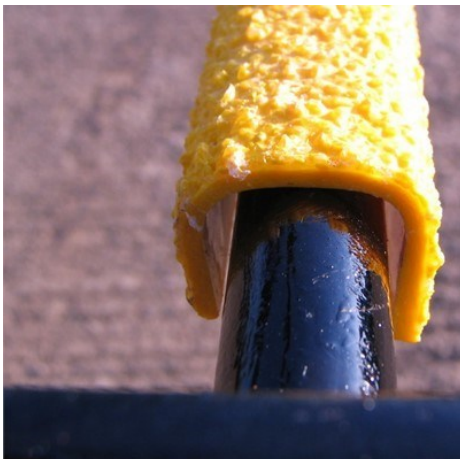

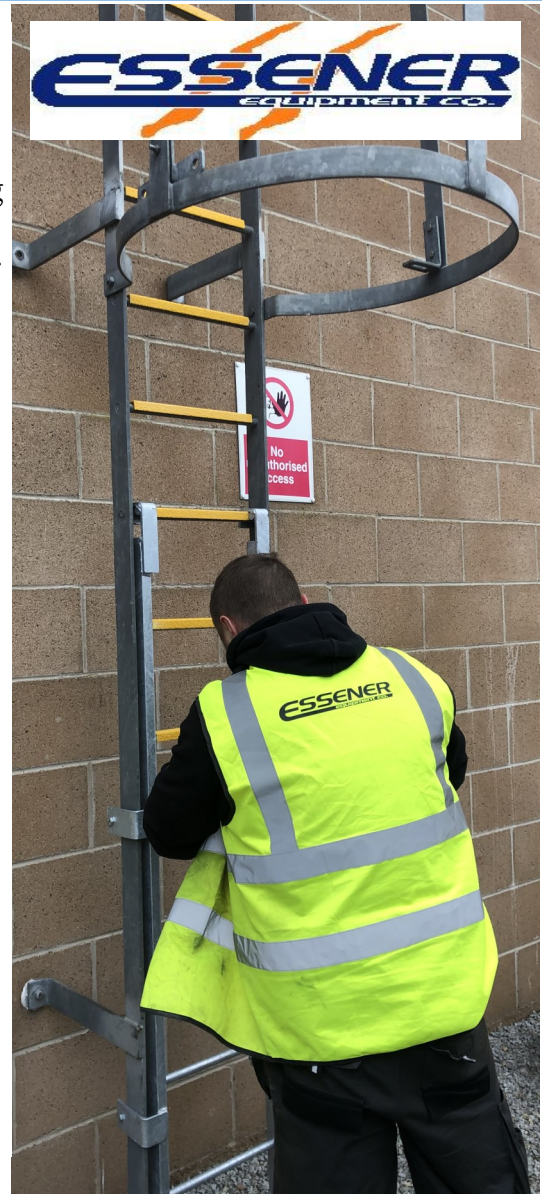

Essener Equipment Ltd GRP Slip Resistant Ladder Rung Covers. The ultimate fibreglass ladder safety protection. Available in 4 different sizes. GRP Slip Resistant Ladder Rung Covers are cost effective and add safety to new and old ladders.

## Best Uses

**GRP Slip Resistant Ladder Rung Covers** are a slip resistant ladder rung cover that will reduce the risk of slips from ladders and improve ladder safety by increasing the surface area for foot contact and greatly increasing the friction co-efficiency and visibility.

## Application

**GRP Slip Resistant Ladder Rung Covers** are unique in the way they are formed to fit over the rungs of fire escapes, service ladders and the majority of all other types of ladders. **GRP Slip Resistant Ladder Rung Covers** are suitable for use on nearly all types of ladders made out of different materials and can be used internally or externally to give your ladder added safety and [slip protection](#).

Structural adhesive applied
